STARGATE SECURITY

SECURITY

WHO WE ARE

Stargate Security is a professional and dynamic company that has been operating since 2010 with a careful work method to continuously integrate data analysis with operational activities, recording remarkable service results and appreciation by prestigious private companies.

The professional experience gained in over twenty years of service in the national and international security of prestigious institutional organizations has made possible to transfer the planning, competence and skills acquired in the sector to Stargate Security, to guarantee interventions and security operations and intelligence recognized and appreciated not only by our customers, but also by the competent authorities.

The growth and consolidation of the company structure has taken place without interruption, thanks to the search for **characterized and specialized personnel**, to whose training and qualification we have devoted great attention, aware that only by pursuing excellence is possible to reach the effective customer satisfaction.

The needs expressed by our customers have determined the choice to include, within the staff, competent professional figures in the **investigative, legal, auditing, accounting and technical sectors**, adequately trained in order to face and manage complex situations, maintaining the best relational profile with our customers and ensuring wide-ranging support.

WHO WE ARE

We provide integrated security solutions for companies, managerial management of the **company mission, budget and resources** in the field, **personnel and cutting-edge technologies**, as well as analysis and protection of data and information in accordance with the changing regulatory expressions of sector, combining the **needs of customers with the requirements of the competent Authorities**.

We have certified **Security Managers UNI 10459/2017**, and carry out Security and security management activities in events and exhibitions, both in the periods in which no Events are scheduled - in order to monitor and verify the various situations / procedures / systems, both in the periods in which, however, the same are carried out, as well as for the research, coordination, management and monitoring of the armed security companies, concierge-fire prevention, reception, Loss Prevention & Customer Security services.

We also carry out specific IT activities to support the security of ticketing systems, accreditation and registration of visitors and various workers, as well as intelligence that may be necessary for the optimization of the security system of the exhibition sites and events.

WHO WE ARE

The Long-time experience gained in the management of services in the exhibition area and in events, in which the commitment to stimulate the intelligence processes was shared with respect to those guaranteed by the mere physical presence of security guards and concierges inside exhibition areas made the cost containment possible for supplies of the concierge and security services, directing the performance towards the redirection of economic resources to the efficiency of the service.

We have been following Italian and multinational companies for some time to **ascertain acts of unfair competition** put in place by shareholders and other collaborators, documenting employee behavior in violation of the duty of loyalty and fairness.

Extensive is our experience in verifying the activities carried out by competitors, for the protection of the company business, trademarks and patents.

The operating results have been widely recognized both by the local press and television networks, and by the Public Security Authorities.

EXPERTISES & SKILLS

EXPERTISES & SKILLS

Event management

A solid background gained in the **management of high-impact security events**, allows us to guarantee, for years, the highest levels of security in exhibitions of exceptional value and importance, also through the profitable use of Close Protection personnel, Security Officers and of security guards.

We have recorded over time the satisfaction of our customers for the professionalism and discretion highlighted in the performance of security services, operating with different quality standards for each event, carrying out an in-depth analysis of the elements that characterize the same and always taking into account the specificities of the location and the public involved.

Our commitment to the management of services for the Luxury sector has allowed us to consolidate a unique experience and professionalism on the national and international territory, thanks to the high standards of service.

■ Cartier High Jewellery Exhibition

Malta, 8 - 9 October 2021

We ensured security at Club Gracey, evening with dinner / customers and a parade of models wearing Cartier jewellery

■ 78^a Mostra Biennale del Cinema

Venice, 1 - 11 September 2021

As part of the Venice Biennale International Film Festival, we carried out special security services for the high-end jewellery house Cartier.

During the same period, we also provided security for gala dinners and events organized by Cartier, which involved various VIPs at the most important hotels in Venice.

■ IWC On Tour Milano 2021

Exclusive Italian presentation of the new Pilot's Watches collection

IWC Schaffhausen inaugurated the Italian leg of the international tour, a private and exclusive presentation of the entire Pilot's Watches 2021 collection, the undisputed star of the new Big Pilot 43. On this occasion, targeted safety services were set up for the absolute preview presentation of the new chronographs inspired by the collaboration with the US Navy Squadrons.

EXPERTISES & SKILLS

Event management

■ SixièmeSens par Cartier

Como, 25 June - 5 July 2021

The shores of Lake Como were the perfect backdrop to frame the presentation of the new Cartier capsule called Sixième Sens. Special security services have been set up to protect the event which saw the participation of an important protective device also by the Police Forces. Other prestigious locations have been affected by other punctual security services.

■ Exhibition "Van Cleef & Arpels: Time, Nature, Love"

First Italian exhibition of the French high jewellery maison, which in the setting of Palazzo Reale in Milan has brought over 400 jewels, watches and precious objects made since its foundation in 1906. From November 2019 to February 2020 we have ensured and managed the security services of the exhibition and collateral events, galas, concerts, vernissages, etc. with specialized and highly professional staff who guaranteed a discreet and effective security framework.

■ "Van Cleef & Arpels" exhibition Palazzo Serbelloni

Milan, November 2019

We ensured the protection of the event in which high values of jewels were concentrated, which was thus able to take place within a discreet, effective and highly professional security framework.

EXPERTISES & SKILLS

Event management

VicenzaOro January - International Jewellery Exhibition - VOJ

For years we have been guaranteeing the safety of all high jewellery exhibition events that take place in Vicenza and in which about 1,250 Italian and foreign brands are exhibited on an area of about 70,000 square meters. which sees the participation of about 45,000 visitors from over 130 countries.

VicenzaOro September International Jewellery Exhibition - VOS

As well as all collateral events (opening ceremony, personalities, opening cocktail, gala dinner, reserved areas, etc.). We have been guaranteeing the safety of all annual events for years, in which about 1,200 Italian and foreign brands are exhibited on an area of about 60,000 square meters. which sees the participation of about 40,000 visitors from over 130 countries.

Gucci high jewellery exhibition in Paris – GUCCI OTO HIGH JEWELERY EVENT Francia, July 2019

We followed the construction of the Security system for the High Jewellery event which was held in Paris from 2 to 5 July 2019.

We have been commissioned to study and implement all the safety solutions suitable for guaranteeing the jewelry on display. The Security Manager team took care of the creation and control of the access system via badge, to the programming of the access tracing system via R- fid badge. In relation to the particular type of goods exposed to free touch, the security staff has been trained, guaranteeing a high standard operating result. Furthermore, for the tracing of the jewels from the exhibition halls to the OTO Room - where sales are made in the reserved lounges, we have created a control software shared with the Gucci representatives. We took care of the positioning and installation of armored cabinets, also taking care of the verification, control and storage procedures of the products.

EXPERTISES & SKILLS | Event management

■ Gucci high jewellery exhibition in Tokyo – GUCCI OTO HIGH JEWELRY EVENT Japan, October 2019

We have been designated as a security partner by Gucci, including for the event that was held in Tokyo.

■ International exhibition of OroArezzo jewellery

From 2017 to today we have guaranteed the safety of all annual events and all collateral events (opening ceremonial, personality, opening cocktail, première, vault management, cash & carry, etc.), in which about 400 Italian brands exhibit. and foreigners on an area of approximately 21,000 square meters. which sees the participation of about 15,000 visitors and 500 international buyers from over 60 countries.

■ Gold Italy international jewellery exhibition

International event in Arezzo that brings together the offer of the best Made in Italy goldsmiths from selected manufacturing companies of the Italian gold districts and the international demand from the main outlet markets of Made in Italy production.

From 2017 to today we have guaranteed the safety of all annual events, in which 161 Italian and foreign brands exhibit on an area of approximately 13,000 square meters. which sees the participation of about 10,000 visitors and 300 international buyers from over 40 countries.

EXPERTISES & SKILLS

Event management

Jewellery Museum of Vicenza

The Jewellery Museum of Vicenza is a museum complex that is divided into 11 thematic rooms distributed on two levels for about 500 square meters. Important safety measures have been guaranteed for years to protect the jewelry on display, which over time has included precious items of:

- Van Cleef & Arpels: Zip Necklace; Van Kleeef & Arpel Collection; Private collections
- Cartier: Collection; Cartier Paris
- Tiffany & Co: New York Collection
- Bulgari: Collection
- Gianni Versace: Collection
- Pierre Cardin: Collection
- Other precious and historical collections

HIT Show exhibition

The most important Italian exhibition dedicated to hunting, self-defense and sport shooting weapons. We have been ensuring the safety of the event for years, for all exhibitions, at the Vicenza fairgrounds.

Exhibition HUNTING Show Sud

Exhibition of hunting and sport shooting at the exhibition center of Marcianise (CE). The company guarantees the safety of arms exhibitions and the event from 2018 to today.

EXPERTISES & SKILLS

Management and intervention protocol

Stargate Security operates with a **Management and Intervention Protocol**, which provides for the involvement of the Public Security Authority for the activities under its responsibility, which has led to commendable results which have been widely disseminated in newspapers and local television networks.

The areas of intervention in which we operate are:

- Definition of perimeter defenses and control procedures.
- Management of the accreditation system of the workers involved in the set-up activities.
- Monitoring and classification of the work areas of the individual teams of fitters.
- Management of the visitor ticketing system.
- Management of entrances, exits and internal flows of visitors and exhibitors.
- Coordination of valuables transport services involving dozens of armored vehicles simultaneously, with pre-assignment of the unloading and loading areas of valuables.
- Coordination of resources in the field: security guards, doormen, ticket office, receptionist,
- close-protection, loss-prevention, private investigators.
- Arrangement of instrumental checks by means of X-ray equipment and metal detectors for
- the control of visitors and their luggage.
- Security and intelligence on cases of interest, through close collaboration with institutional

RISK MANAGEMENT

The **intervention protocol** provides for a preliminary assessment of the "AS IS" situation through a **Security Assessment** from which it is possible to identify the desirable corrective actions for the improvement of the security system on the settlement, the times and the necessary procedures. The operational phase is articulated within the framework of the provisions of a **Security Plan** shared with the customer, to respond to any situation or event of importance for security.

EXPERTISES & SKILLS

Cybersecurity

Through its team of Information & Cyber Security Advisor specialists, we offer consulting, auditing and testing services in the field of Information Security, guaranteeing coverage of all the fundamental aspects of information security in the organizational, procedural, legal and technological fields, to meet the needs of our customers.

Our services are:

- Specialist consultancy for the implementation of the organizational and procedural model aimed at the governance of ICT Security
- Definition and implementation of the Information Security Management System (ISMS) for compliance with ISO / IEC 27001
- Identification and monitoring of safety performance indicators
- Definition and implementation of information security risk analysis models and methodologies
- Planning and design of security solutions oriented to the development of the company business
- Management consultancy for the definition of value-added security services
- Management consultancy for the design and revision of strategic corporate security plans
- Support for project management activities for the implementation of security measures
- Organizational and procedural consultancy to support the creation of private SOC's and CERTs
- Analysis of compliance and applicability of regulations and mandatory requirements regarding privacy and information security

EXPERTISES & SKILLS

Cybersecurity

The **proactive and reactive security** services are intended to support customers in the operational management of security and in the adaptation of measures to prevent, combat and contain cyber attacks, and in particular:

- Operational technical support for the management and prevention of ICT security incidents
- Design of proactive and reactive measures for the prevention and management of ICT security incidents
- Vulnerability Assessment
- Technical checks of compliance with company policies and legal regulations applicable to
- the ICT sector
- Definition of Hardening and Configuration Management policies
- Support for the implementation of ICT Security Plans
- Support for the management of ICT security systems and platforms
- Technical training for the management and administration of ICT security

Stargate Security's team of specialists is able to support the Customer in resolving **crisis resulting from serious security incidents**, such as malware infections, DoS attacks, phishing, intrusions on internal computer systems and attempts at computer fraud. In addition, our team provides support in the event of an **Incident for Disaster Recovery and Data / System Restore**.

We also provide support and advice for:

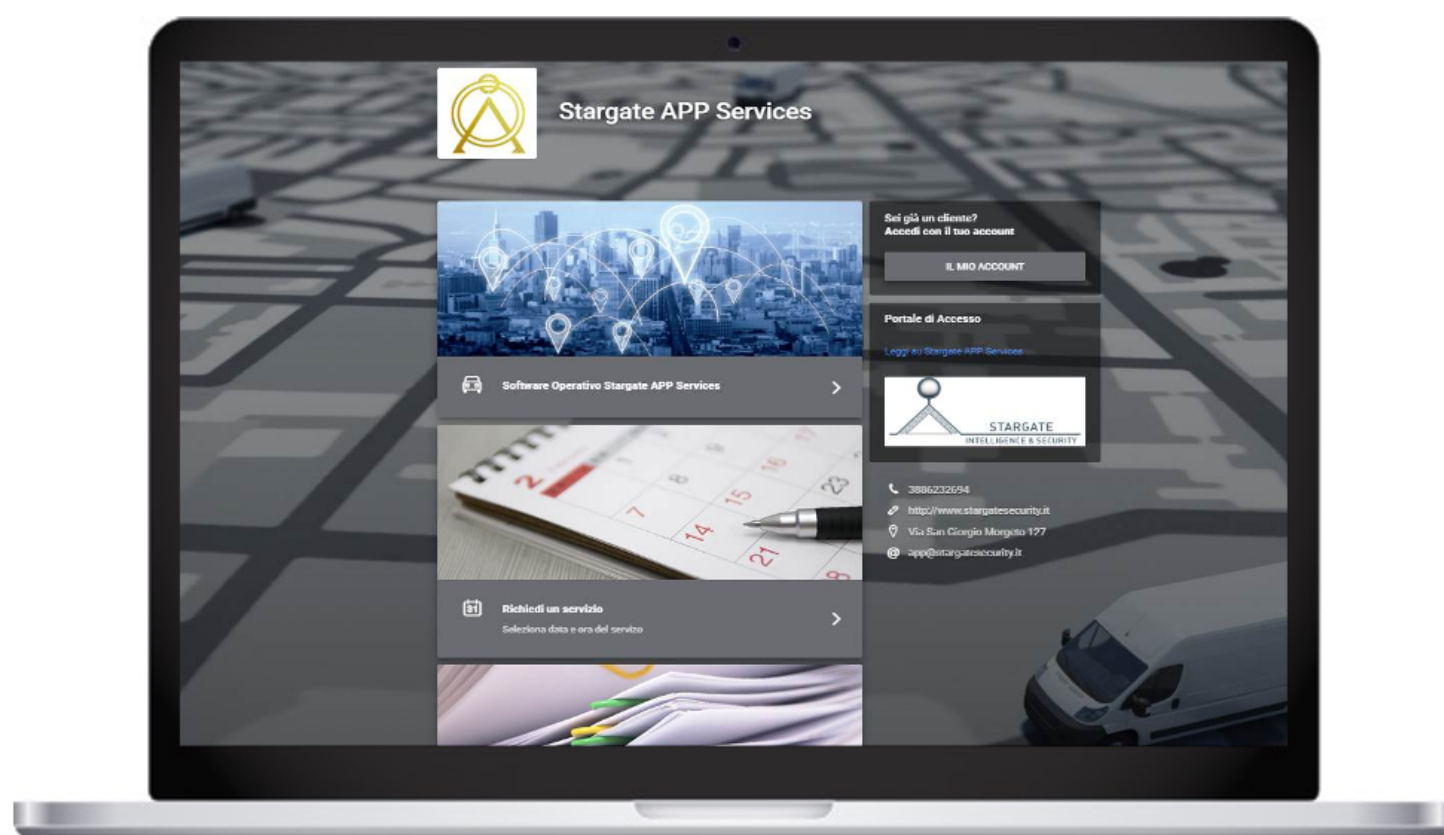

- Design, integration and development of architectures dedicated to proactive monitoring of networks
- Design and integration of centralized Identity & Access Management systems
- Design and integration of logical access control systems

EXPERTISES & SKILLS

"Stargate App Services" Management Platform

Stargate Security, aware that IT tools can represent a valid means of immediate interaction with the Customer, has equipped itself with a web platform - Stargate APP Services, compatible with both Windows and MacOS, which brings together different technologies, programming languages and resources in the cloud, which allow high scalability, business continuity and data security.

Our platform offers the following features:

- management of services
- request for an extra service
- sending reports (anomalies, disputes, problems)
- management of the costs of the extra services requested
- Operating software for GPS monitoring
- information of an accounting nature

EXPERTISES & SKILLS

Operating Portal

The operational portal consists of:

WIASTARTAG APP

APP present on PLAYSTORE with a size of only 5.6MB that allows you to transform a smartphone or tablet into a tracker with consequential control of the position or display of movement tracks, using the interface of the Stargate APP Services monitoring system.

The application communicates the position of vehicles and operators equipped with the App in real time.

STARGATE APP SERVICES GPS APPLICATION

Internet application on CLOUD, consisting of a GPS, GSM signal management system, with an interface in Italian.

Online GPS tracking allows you to detect:

- position and movement of the unit (live and historical)
- keep track of a specified set of unit parameters, such as: speed of movement, route, milestones, distances, alarms
- activity notifications of the operating unit
- reporting
- analysis and interpretation of unitary data through reports (tables and graphs) and
- much more.
- The platform also has the functionality that allows you to receive an evaluation of the driving quality and, consequently, improve driving safety, extend the life of the vehicle fleet, reduce fuel costs.

EXPERTISES & SKILLS

Video Analysis with Artificial Intelligence

Stargate Security is **Axxonsoft certified** for the design and implementation of video analysis systems using artificial intelligence.

We followed the governance of a project of primary importance from a technological and innovative point of view, aimed at creating the new advanced video surveillance system "**Smart Security Olympic Stadium**" with the dual purpose of strengthening physical security in view of the sporting event Euro2020 and to contain the spread of COVID -19.

The management of the video surveillance system represented an important commitment for Stargate Security which ensured its activity during the main football matches played at the **Olympic Stadium in Rome**, both in relation to the matches played by the **AS Roma** and **SS Lazio** clubs in the football championship. **Serie A**, both in the **UEFA Europa League** and **UEFA Champions League** tournaments in the year 2020 - 2021, and during the football matches of the national teams involved in the **Euro 2020** competition.

A man in a dark suit and patterned tie is shown from the chest up. He is pointing his right index finger towards the viewer and holding a black folder in his left hand. A blue, semi-transparent geometric overlay with a hexagonal pattern is positioned over the center of the image, behind the word 'INVESTIGATION'.

INVESTIGATION

AUTHORIZATIONS

Stargate Security is authorized by the Prefecture of Rome to carry out the following activities throughout the national territory:

STRATEGIC SYNERGIES

WITH LEADING COMPANIES IN THE SERVICE SECTOR

SECURITY TRAINING

In the training sector, Stargate Security shares with **Security & Training** the commitment to improve the quality standards of its staff and to optimize the security services with specialized and certified personnel, boasting over ten years of experience in the sector, with brilliant results, recognized by companies private and public bodies.

K9 UNIT

The continuous search for efficient security solutions has made it possible to develop the partnership with **SECURITYDOGS.IT (brand of NGS srl)**, with the aim of integrating the intelligence and event security processes with the professionalism of a team of expert dog handlers specialized in security techniques and authorized to search for prohibited or dangerous substances: Detection (search) of dangerous or prohibited substances (explosive materials, weapons, narcotics) and Deterrence aimed at avoiding conflicts and criminal acts. Professionals are selected for CV, type of operating dog they have, and strict compliance with professional ethics.

The **anti-explosive and urban security K9 UNITS** follow exclusive training protocols for the dog sector, already used internationally for police and private security services, compliant with NATO and UN standards and proposed to the attention of our customers, as exclusive methods for the Italian market.

The K9 Units have been used in the **COVIDOG scientific experimentation** to be used as a screening method for Covid-19, in particular in events, i.e. in all places with a high concentration of people, in ports, airports, railway stations, schools, events trade fairs and sports, etc.

SECURITYDOGS™
Training for the real world
